

\*Recommendation letters MUST state the number of hours you have worked for the vet or participated in extracurricular activities. Please stress this to your veterinarian or supervisor. Signed copies of volunteer hours should be attached to the recommendation letters. To do this, please use the form below.

Relatives should not write letters of recommendation under any circumstances. If you are working in your parents' clinic, the associate vet, vet technician or business administrator should verify your hours and write the letter of recommendation.

For FFA animals raised, estimate number of hours/year and have FFA teacher or supervisor sign.
